TALK IT OVER

During the Deeply Rooted series we've asked all of our groups to follow the Rooted curriculum. For those unable to participate in Rooted at this time, we offer the following questions to prompt dialogue with those you can connect with.

Why do you think messages about money make so many people uncomfortable? What are some other topics from the bible that do so? Why?

What could a bible teacher do to help people be more open about topics like the above?

What parts of the message align with your current perspective about your finances?

What part from the message was the biggest challenge to you?

What is your experience with giving? What do you know about the biblical view of "the tithe?"

What stands in your way from becoming a consistent giver?
