Eph. 3:20-21

Talking through the message during the week can really help clarify the things that God is teaching you and let others learn from your experiences. Get with someone this week and talk about your answers to the following questions.

What thought from the message stands out most to you?

What is your greatest accomplishment and why?

Why is it important to see that we have a choice to make when it comes to how we experience the gift of God's grace and salvation? In what ways have you seen this in your own life?

What happens when we lose sight of the purpose of what we're aiming for? In what ways have you seen this in your own life?

In what ways do resistance, pain, or struggle play an important role in our growth? In what ways have you seen this in your own life?

What do we learn from Christ about endurance?

In what ways have you been inspired by others, particularly in regard to their commitment to Christ and the way that they live their lives?

Talk through "our most meaningful accomplishment". What does that statement mean to you?
